

HOME FEDERAL BANK

A Better Way

For Immediate Release

December 9, 2010

HOME FEDERAL BANK OPENS BRANCH IN BOSSIER CITY

BOSSIER CITY, La—Home Federal Bancorp, Inc. of Louisiana (OTC Bulletin Board: HFBL), the "mid-tier" holding company of Home Federal Bank, announced the opening of a new branch location of the Bank in Bossier City. The branch is located at 2555 Viking Drive, and is the fourth full-service location in northwest Louisiana.

The temporary structure features drive-through banking lanes and a 24-hour drive-up ATM. As do other Home Federal Bank locations, the new branch offers customers personal and business banking services including checking accounts and lending, as well as wealth management services.

"Home Federal Bank's recent growth has allowed us to offer products and services typically available in larger financial institutions, but we still provide the personal service customary of a local community bank," said Jim Barlow, President of Home Federal Bank. "We are excited to now offer our services to the Bossier City community, and we look forward to further growth."

The permanent structure is scheduled for completion in 2012.

Home Federal Bancorp, Inc. is the mid-tier holding company for Home Federal Bank, which conducts business from its main office, three financial centers and a commercial lending office all located in northwest Louisiana. Home Federal recently shifted focus to becoming a full-service bank and is committed to providing an unparalleled level of personal service while helping customers meet all their financial needs.
